

2015/16 END OF SEASON NEWSLETTER

Kidsquash finishes 11th year with 40 juniors

Dear Kidsquashers,

Our 2015/16 season is finished and we wanted to send you a thank you and a summary of how our season went.

Kidsquash raised a total of \$3,978 this year. While the sum is a little less than last year, we doubled our participation rate this year with 40 kids trying out and attending our 12 clinics!

First of all, thank you to all the parents and everyone who made a donation this year. Our suggested donation for the full season (fall & spring) was \$249. With 12 clinics (90 minutes each), that brings the per clinic rate down to about \$20. The donations help us to provide equipment for all the kids and reserve court space at Harvard University. We are proud to serve the local community at a low cost and offer kids an entryway to squash; and it wouldn't be possible without all of you.

We also want to thank our volunteers: Aaron Hadar, Gautam Mitra and Joey Raskin Lantos. They are all former Kidsquash players and were helping with many of our clinics this year. It's very valuable for our young juniors to have such enthusiastic and mature coaches to look up to.

And finally, thank you to our long-time partner, Head, as well as MassSquash and US Squash for supporting our program.

As you might know, Kidsquash is a part of Khelshala. You can read more about Khelshala here: <http://www.khelshala.in/>.

Once again, thank you for the past season.

Have a great summer!
